

FieryXF501.txt

What's new?

New printer driver support

- EFI VUTEk HS100 Pro (+ White)

Updated functionality

- Dramatically accelerated (~5-6 times faster!) error diffusion (SE1) halftoning for the following EFI VUTEk printers in Grayscale print mode: GS2000 Pro (+ White), GS2000LX Pro (+ White), GS3250 Pro (+ White), GS3250LX Pro (+ White), HS100 Pro (+ White), QS2 Pro and QS3 Pro.

Documentation

- Added the Fiery XF 5.0 online user manual for English (updated), French, Italian, German, Spanish, Japanese and Simplified Chinese.
- Added the context-sensitive help for Color Tools for French, Italian, German, Spanish, Japanese and Simplified Chinese.

Bug fixes

- Various bug fixes for the Fiery XF Client, Server, Adobe PostScript and PDF Print Engine, EFI VUTEk and Epson printer drivers, Fiery XF Activation Wizard dictionary, X-Rite iSis control charts and the Fiery XF Server Information tool.
